1. Multi-Disciplinary Combined Facility-Conceptual Planning - Award Conditions

***Award Conditions to the Financial Assistance Award  
Between the Denali Commission and Copper River Native Association  
For Multi-Disciplinary Combined Facility - Conceptual Planning  
Award No. 01151  
July 2009***

***1. Scope of Work***

This project is for conceptual planning for health service needs and facility improvements for the Copper River Region, especially as they relate to behavioral and dental health. Up to \$150,000 is provided to the Copper River Native Association (CRNA) via this grant award for conceptual planning of a new facility to replace their current behavioral and dental health and office/administrative buildings. The CRNA has been approved to proceed with the project in accordance to their June 24, 2009 submittal on conceptual planning. In addition, this conceptual planning effort is funded in association with and according to the November 5, 2008, letter from the Copper River Regional Health Network to the Denali Commission, which lists the CRNA facility as a Level 1 Priority for the Region.

The scope of this grant corresponds with the material supplied by CRNA on June 24, 2009, which refers to a deep look study conducted by the Alaska Native Tribal Health Consortium (ANTHC) on their current behavioral health and dental health facilities in Copper Center and Glennallen. Together, the ANTHC report reflects that these facilities are in need of more than \$9 million in repairs.

CRNA plans to relocate the behavioral health and dental health services, along with ancillary and related health and social services to a centrally located new facility in Glennallen. As they further plan the concept of this facility, CRNA has secured the assistance of Maniilaq Association and the Yukon Kuskokwim Health Corporation (YKHC). Maniilaq and YKHC propose to provide technical assistance in the preparation of applications to several funding opportunities for the construction and equipping of the new building.

These funds may be expended on such technical assistance and related work that seeks to further this facility project through the planning phase to the design phase.

All Commission funding is intended for use for the scope of work identified in the Award document only. Any balance of funds remaining after the full scope of work has been completed will be returned to the Denali Commission.

***2. Milestones***

The following milestones are identified as the major steps to be completed as part of the project. "Planned" dates for the first milestone are included here. As part of each progress report, recipients shall update the progress toward meeting these milestones (see section 7, Reporting).

Milestone	Planned		Actual		Units	Total Cost At Completion
